

Westman Communications Group Adds DVR Expander to Equipment Line-Up

Brandon MB, July 23, 2010 – Westman Communications Group is pleased to announce that Digital Video Recorder (DVR) Expanders are now available. A DVR Expander allows a subscriber to expand, by up to 10 times, the storage capabilities of their High Definition Digital Video Recorder (HD DVR) Terminals.

Dave Baxter, President and CEO, Westman Communications Group, says, “Connecting the Expander to specific HD DVR Terminals that subscribers currently use will allow them to record up to 600 hours of Digital TV or 120 hours of High Definition TV.” Baxter added, “With the addition of the Expander, our service has the largest recording capacity available in the Westman region.”

Subscribers with the Expander connected to their HD DVR Terminal will still have access to all the DVR features they have come to enjoy – recording one program while watching another, recording two programs at the same time, watching a recorded program while recording two other programs, pausing live television, rewinding and replaying programs so they don’t miss a minute of their favourite programs.

Subscribers interested in more information on DVR Expanders should call the Westman office at 725-4300 or 1-800-665-3337.
